

# 100 years of rope shovels

P&H was founded in 1884 and was acquired by Komatsu in 2017. P&H was an innovator in rope shovels, introducing the P&H 206 model in 1920. This shovel was instrumental for infrastructure projects during an era of rapid economic growth. Today, P&H shovels feature cutting-edge technology, helping mining and construction companies around the world move more materials faster and efficiently.
