

Battery hauler operator simulator

Empower your operators. Boost production. Minimize downtime.

The process for training your operators should be affordable and effective. The Joy battery hauler operator simulator is a value-driven, portable training solution designed to get your operators up to speed quickly in a controlled training environment, without impacting your fleet.

Quick benefits

- Fast-tracks learning
- Prioritizes safety through simulated operator training
- Reduces downtime for equipment
- Builds a strong foundation for real operational environments

The compact design and built-in storage allow for easy transport, making training accessible anytime, anywhere. A virtual reality (VR) headset and real-time monitoring features create a fully engaging experience to prepare your operators for real-world scenarios with confidence.

Key features

- Compact design with wearable VR and frame-mounted screens
- Authentic feel and function with real Joy controls
- Adjustable, ergonomic frame for comfort
- Integrated computer hardware for seamless operation

Level-up your workforce with a VR training experience

The Joy battery hauler operator training simulator provides a realistic virtual reality (VR) environment that is equipped with real Joy components.

Refine skills virtually

Trainees will engage in realistic scenarios in a controlled training environment, building confidence and mastery of complex skills.

Prioritize operator safety

Mitigate the risk of accidents and injuries during training through an immersive virtual environment to help trainees prepare for a live battery hauler operation.

Learn by doing

Hands-on learning goes beyond lectures or manuals, allowing trainees to operate equipment and build practical proficiency for real-world applications.

Reduce equipment downtime

Simulators free up valuable equipment for continued operation, maximizing productivity and resource efficiency.

Experience matters

Interactive learning experiences are designed to keep trainees engaged and motivated, boosting knowledge retention for long-term success.

Train smarter with Joy's VR simulator for battery haulers.
