

# HX30

Underground mining truck

The perfect partner for the WX11 LHD

## Keep your operation running smoothly with dependable hauling performance

When you need to move material quickly and easily underground, you can rely on Komatsu's HX30 to get the job done. This powerful, reliable and ergonomic 30-metric-ton mining truck features best-in-class power rating, oscillating articulation and excellent turning radius to help deliver the high performance and productivity needed to achieve your goals.

- Best-in-class power rating of 320 kW
- Excellent turning radius for maneuverability
- Less material adhesion with exceptional dumping angle
- Oscillating articulation for a smooth, comfortable ride

### Quick specs

- **Volume, nominal heaped:** 19.6-23.5 yd<sup>3</sup> (15-18 m<sup>3</sup>)
- **Payload capacity:** 66,000 lbs. (30,000 kg)
- **Height, laden (at cabin):** 102 in. (2,600 mm)

Ready for a surge of productivity in your underground hauling operation? Check out the back page to learn more about Komatsu's HX30 mining truck.

# Maximize material movement even in challenging environments

The HX30's maneuverability and powerful performance make it ideal for navigating tight spaces in mid-seam mining operations. It's also engineered for operator comfort and efficiency with an ergonomically designed cabin, intuitive controls and an optional trainer/passenger's seat.

## Work smarter

Enhance performance and efficiency with an optional payload weighing system, customizable dump bowls, and data logging and digital analytics systems.

## Maneuver, move, deliver

Operate effectively in tight spaces with this truck's excellent turning radius and move material quickly and efficiently with one of the best-in-class dumping angles of 65 degrees.

## Operate comfortably

Features an ergonomic, ROPS/FOPS air-conditioned cabin with optional emergency (trainer) seat, adjustable steering wheel, pneumatic suspension operator seat and oscillating articulation to help keep operators comfortable, focused and productive.

## Easy maintenance

Ground-level access with a lockable main switch and centralized service points help streamline maintenance. A Wiggins fast fill system, tire pressure monitoring and an electric hydraulic pump are optional.

## Optimize fleet efficiency

For access to data insights, this machine can be equipped with an optional data logging system and digital analytics solution. It's also automation ready with a level 9 proximity detection interface.

Efficient, productive material transport starts with Komatsu's HX30 mining truck.
